

This report is a short summary of the results of the fall survey done immediately after the October 2, Leadership Community. 187 people responded to the survey. Approximately 67% of the respondents felt like the time of day, day of the week and length of time were "good" or "excellent".

Many thought the invitation process was fine, but that the DVD was unnecessary. The good news is that 99% of the respondents felt as though their time was "valued" or "highly valued". A number of changes were announced at the Leadership Community event. Most were "informed" or "excited", however many were "processing".

We were able to discuss many of the issues such as discipleship path, keeping 8301 Lamar, communication, and the New Community changes after getting the results of the survey. We hope to use this tool to better adjust our strategies in the coming months.

Check which box best describes your level of agreement with the following statements:

"Gather, grow, and go." are a great way to describe our discipleship process.

"I understand the change to New Community and agree that it's necessary."

"I am excited about the prospects of the Rhodes facility helping advance our mission."

"Keeping our current location (8301 Lamar) is extremely important to me."
